Safety Data Sheet

Section 1: Identification

Product identifier	
Product Name ·	White Rouge
Relevant identified uses o	f the substance or mixture and uses advised against
Recommended use •	Consult manufacturer for the recommended product use.
Details of the supplier of the	he safety data sheet
Manufacturer •	Thunderbird Supply Corp
	1907 W. 66 Ave. Gallup, NM 87301 United States
Telephone (General) •	1-505-722-4323
Emergency telephone nur	nber
Manufacturer •	1-800-424-9300

United States (US) According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012

 Skin Irritation 2 Specific Target Organ Toxicity Repeated Exposure 2

Label elements

OSHA HCS 2012

WARNING

Hazard statements •	Causes skin irritation May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	
Prevention •	Do not breathe dust. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Response •	If on skin: Wash with plenty of water . Specific treatment, see supplemental first aid information. Take off contaminated clothing and wash before reuse. If skin irritation occurs: Get medical advice/attention.

Storage/Disposal · Dispose of content and/or container in accordance with local, regional, national, and/or

international regulations.

Other hazards OSHA HCS 2012

• Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

Section 3 - Composition/Information on Ingredients

Substances

• Material does not meet the criteria of a substance.

Mixtures

Composition					
Chemical Name	Identifiers	%	LD50/LC50	Classifications According to Regulation/Directive	Comments
Alumina	CAS :1344-28- 1	79.2% TO 85%	NDA	OSHA HCS 2012: STOT RE 2 (Lungs, Inhl)	NDA
Stearic acid	CAS:57-11-4	15% TO 20%	NDA	OSHA HCS 2012: Skin Irrit. 2	NDA
Ctn EM-1B Gum Rosin 100 kilo	NDA	0% TO 5%	NDA	OSHA HCS 2012: Not Classified	NDA
Major Impurities	NDA	< 0.85%	NDA	OSHA HCS 2012: Not Classified	NDA

Section 4: First-Aid Measures

Description of first aid measures

Inhalation	 Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. If signs/symptoms continue, get medical attention.
Skin	• Wash skin with soap and water. Wash contaminated clothing before reuse. If irritation develops and persists, get medical attention.
Eye	 In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. Get medical attention.
Ingestion	 Rinse mouth. Do not give anything by mouth to an unconscious person. Do NOT induce vomiting. Obtain medical attention immediately if ingested.
Most important sympto	oms and effects, both acute and delayed
	 Refer to Section 11 - Toxicological Information.
Indication of any imme	diate medical attention and special treatment needed
Notes to Physician	 All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Fire-Fighting Measures

Extinguishing media		
Suitable Extinguishing Media	•	In case of fire use media as appropriate for surrounding fire.
Unsuitable Extinguishing Media	•	Water spray may be ineffective on fire, use fog nozzles if water is used.

 Special hazards arising from the substance or mixture

 Unusual Fire and Explosion
 • Closed containers may rupture if exposed to extreme heat.

 Hazards
 • No data available

 Hazardous Combustion
 • No data available

 Advice for firefighters
 • Volume

 Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters' protective clothing will only provide limited protection. Use water spray to cool closed containers.

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions	• Wear appropriate personal protective equipment. Do not walk through spilled material. Wear appropriate personal protective equipment, avoid direct contact.
Emergency Procedures	 As an immediate precautionary measure, isolate spill or leak area for at least 25 meters (75 feet) in all directions. Keep unauthorized personnel away.
Environmental precaution	ns
	 Avoid run off to waterways and sewers.
Mathada and matarial fa	representation and elegening up

Methods and material for containment and cleaning up

Containment/Clean-up Measures	 Avoid generating dust. SMALL DRY SPILLS: With clean shovel place material into clean, dry container and
	cover loosely; move containers from spill area.
	LARGE SPILLS: Cover powder spill with plastic sheet or tarp to minimize spreading.

Section 7 - Handling and Storage

Precautions for safe handling

 Use only with adequate ventilation. Minimize dust generation and accumulation. Wear appropriate personal protective equipment, avoid direct contact. Do not breathe dust. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Wash contaminated clothing before reuse.

Conditions for safe storage, including any incompatibilities

Storage

Handling

• Keep container tightly closed. Store upright when not in use to prevent leakage.

Section 8 - Exposure Controls/Personal Protection

Control parameters

Exposure Limits/Guidelines			
Result ACGIH OSHA			
Alumina (1344-28-1)	TWAs		15 mg/m3 TWA (total dust); 5 mg/m3 TWA (respirable fraction)

Exposure controls

Engineering Measures/Controls Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. Ensure that dust handling systems (such as exhaust ducts, dust collectors, vessels and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is not leakage from the equipment).

Personal Protective Equipme		
Respiratory	 For limited exposure use an N95 dust mask. For prolonged exposure use an air- purifying respirator with high efficiency particulate air (HEPA) filters. Follow the OSHA respirator regulations found in 29 CFR 1910.134. Use a NIOSH/MSHA approved respirator if exposure limits are exceeded or symptoms are experienced. 	٩
Eye/Face	Wear safety goggles.	
Skin/Body	 Wear appropriate gloves. Wear long sleeves and/or protective coveralls. 	
Environmental Exposure Controls	 Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste. 	

Key to abbreviations

ACGIH = American Conference of Governmental Industrial Hygiene

OSHA = Occupational Safety and Health Administration

TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

Section 9 - Physical and Chemical Properties

Information on Physical and Chemical Properties

Material Description			
Physical Form	Solid	Appearance/Description	White, odorless solid.
Color	White	Odor	Odorless
Odor Threshold	No data available		
General Properties			
Boiling Point	No data available	Melting Point/Freezing Point	No data available
Decomposition Temperature	No data available	pН	No data available
Specific Gravity/Relative Density	= 3.275 @ 60 °F(15.5556 °C) Water=1	Water Solubility	Negligible
Viscosity	No data available		
Volatility	-	-	•
Vapor Pressure	0 mmHg (torr) @ 20 °C(68 °F)	Vapor Density	No data available
Evaporation Rate	No data available	VOC (Wt.)	0 %
VOC (Vol.)	0 %		
Flammability			
Flash Point	No data available	UEL	No data available
LEL	No data available	Autoignition	No data available
Flammability (solid, gas)	No data available		
Environmental	<u> </u>		
Octanol/Water Partition coefficient	No data available		

Section 10: Stability and Reactivity

Reactivity

• No dangerous reaction known under conditions of normal use.

Chemical stability

• Stable under normal temperatures and pressures.

Possibility of hazardous reactions

• Hazardous polymerization will not occur.

Conditions to avoid

• No data available

Incompatible materials

• Strong oxidizers such as permanganates, chromates & peroxides.

Hazardous decomposition products

• Aluminum oxide, cabon oxides from heating.

Section 11 - Toxicological Information

Information on toxicological effects

	Components		
Stearic acid (15% TO 20%)		Acute Toxicity: Ingestion/Oral-Rat LD50 • 4600 mg/kg; Skin-Rabbit LD50 • >5 g/kg; Irritation: Skin-Rabbit • 500 mg 24 Hour(s) • Moderate irritation; Mutagen: DNA damage • Unreported Route-Human • Liver (Somatic cell) • 10 mg/L 20 Hour(s); Tumorigen / Carcinogen: Implant-Mouse TDLo • 400 mg/kg; <i>Tumorigenic</i> :Equivocal tumorigenic agent by RTECS criteria; <i>Kidney, Ureter, and Bladder</i> :Tumors	
Alumina (79.2% TO 85%)		Multi-dose Toxicity: Inhalation-Rat TCLo • 200 mg/m ³ 5 Hour(s) 28 Week(s)-Intermittent; <i>Lungs, Thorax, or</i> Respiration:Structural or functional change in trachea or bronchi; <i>Lungs, Thorax, or Respiration</i> :Chronic pulmonary edema; Related to Chronic Data:Death in the Other Multiple Dose data type field	

GHS Properties	Classification
Acute toxicity	OSHA HCS 2012 • No data available
Skin corrosion/Irritation	OSHA HCS 2012 • Skin Irritation 2

Carcinogenicity	OSHA HCS 2012 • No data available
Germ Cell Mutagenicity	OSHA HCS 2012 • No data available
Toxicity for Reproduction	OSHA HCS 2012 • No data available
STOT-SE	OSHA HCS 2012 • No data available
STOT-RE	OSHA HCS 2012 • Specific Target Organ Toxicity Repeated Exposure 2

Potential Health Effects

 Acute (Immediate) Exposure to dust may cause irritation. Processes such as cutting, grinding, crushing, or impact may result in generation of excessive amounts of airborne dusts in the workplace. Nuisance dust may affect the lungs but reactions are typically reversible. Repeated and prolonged exposure to dust may cause lung effects including pneumoconiosis. Skin Acute (Immediate) Causes skin irritation. No data available 	Acute (Immediate)	 Exposure to dust may cause mechanical irritation. Excessive concentrations of

nuisance dust in the workplace may reduce visibility and may cause unpleasant deposits in eyes.
No data available
• Excessive concentrations of nuisance dust in the workplace may cause mechanical irritation to mucous membranes. Swallowing can cause abdominal irritation, nausea, vomiting & diarrhea.
No data available

Toxicity	
•	No mammalian or aquatic environmental information is available on this product
Persistence and degradabi	ility
•	This product is completely biodegradable.
Bioaccumulative potential	
•	Bioaccumulation of this product has not been determined.
Mobility in Soil	
•	Mobility of this material has not been determined.
Other adverse effects	
•	No studies have been found.
